

Hazel (Words & Music by Kjetel A Idland)

Left In a darkness
Left In a room full of noise
Between a rock and a hard place
Still hope for a few

Heres your last melody
Right at 5ft avenue
Hazel, twisted dirty darling
Born In the ring of fire

Tonight I`m tired
Wonder If I will follow you to heaven
Trapped In Cains ballroom
Dont know If I can make It through

So here`s your last melody
Right at 5ft avenue
Hazel, twisted dirty darling
Born In the ring of fire

So here`s your last melody
Right at 5ft avenue
Hazel, twisted dirty darling
Born In the ring of fire

I`v been up, I`v been down
Lost myself dying now
Where`s your soul tonight
I brought them lights

So here`s your last melody
Right at 5ft avenue
Hazel, twisted dirty darling
Born In the ring of fire

So hear your last melody
They won't rest In peace
Hazel, you got to bury them deep
All of my prayers to you
