

Rebel Angel (Words & Music by Kjetel A Idland)

Watch the time, waiting for tomorrow
The clock is ticking and days goes by
Hear the silence, silence for today
Rebel Angel got nothing to say

Watch the time, watch your heartbeat
This waiting feels out of control
Space and time, soon we will meet
Counting minutes as hours goes by
Watch the time feel my heartbeat
Tell me what you `re feeling
Tell me I watch time goes by

Patiently, I stay calm
Another hour, minute by minute
Anxiously, is it for real
This last hour was made for me

Watch the time, watch your heartbeat
And this waiting feels out of control
Space and time soon we will meet
Counting minutes as hours goes by
Watch the time watch your heartbeat
Tell me what you `re feeling
Tell me I watch time goes by

Another day, Rebel blood flows
Time and silence hand in hand
Universe stars, shining bright
Lying still wondering what to say

Watch the time, watch your heartbeat
This waiting feels out of control
Space and time soon we will meet
Counting minutes as hours goes by
Watch the time feel my heartbeat
Tell me what you `re feeling
Tell me I watch time goes by

I `m right here
I `m right here
I `m right here
I `m right here
